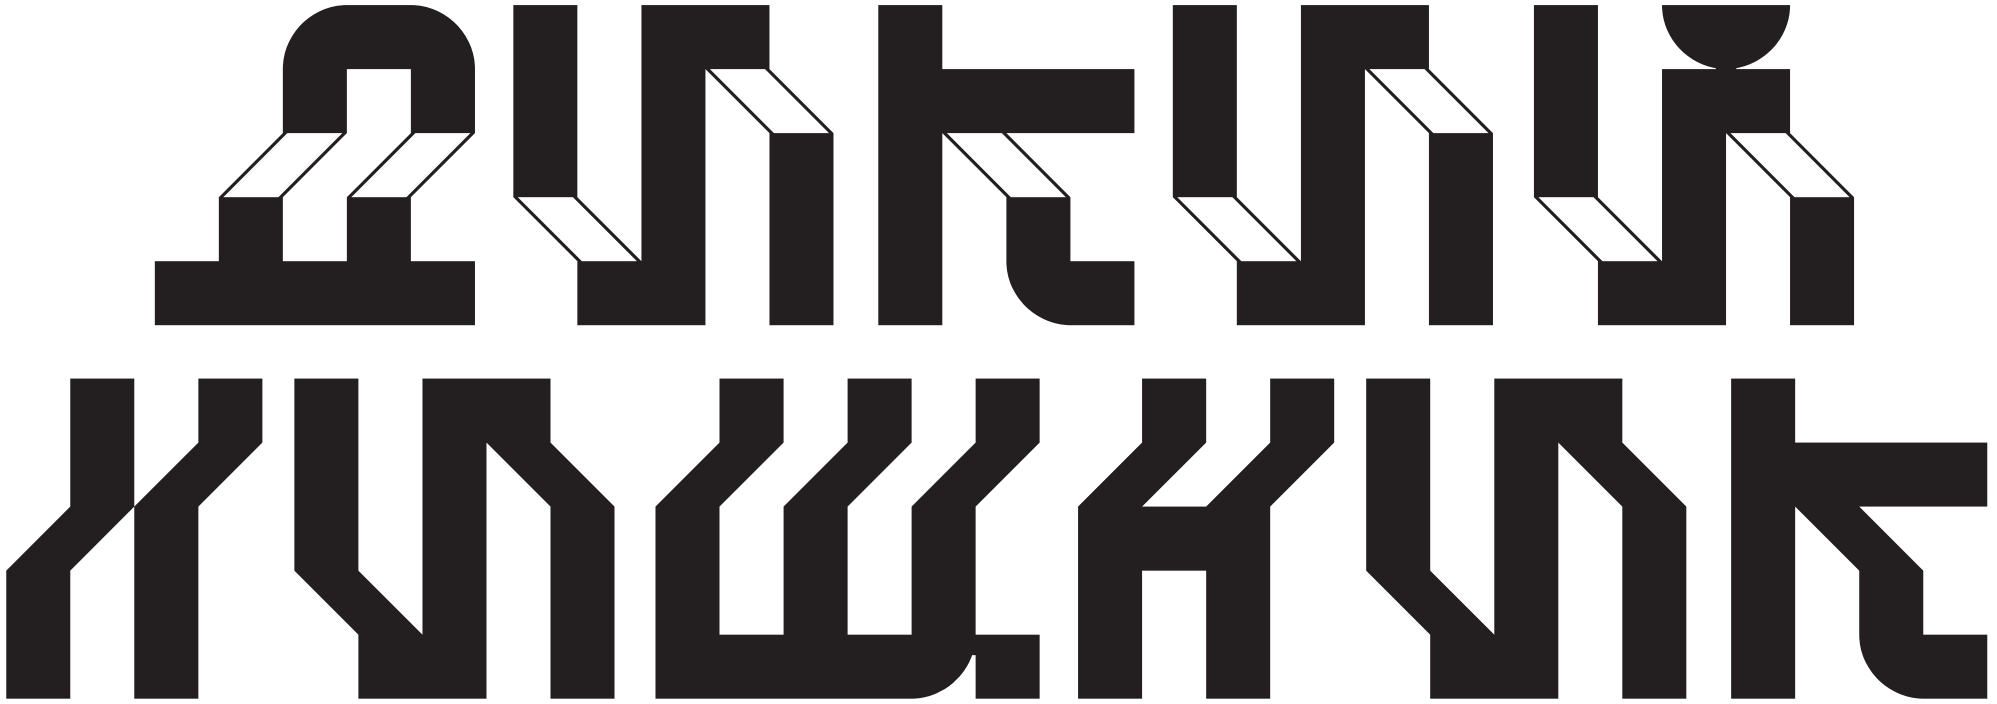
drabina experimental typeface

Drabina Description

2 Styles, basic Latin and basic Cyrillic



Drabina is an experimental typeface created during the practices of the Playfaces community. This typeface introduces the combination of modules in a three-dimensional space. Drabina has no ascenders or descenders, and all letters and diacritics fit within the x-height or cap-height of the typeface. Drabina has 2 styles solid and outline. The typeface supports basic Cyrillic and Latin. It's free for all purposes.
